Breaker training report

TO : SAINT Rome

FROM : SAINT Bari *BH-007*

SUBJECT : Benvenuto \* Bellesini - Report on Training.

1. Benvenuto Bellesini entered the school on Saturday 17 February 1945, for intensive training in signal procedure and the standard signal plan. According to cabled instructions, he was not to receive any training in our set. His quickness, intelligence and years of radio experience enabled him to pick up our procedure very fast and he demonstrated a speedy comprehension of the standard signal plan. His sending is jerky-in the Italian style- but readable. He can easily receive and send 20 WPM. No instructions were received regarding cryptography training, so he was given instruction in how to encipher and decipher on the one-time pad. There is no doubt that he will make an excellent operator.
